**Marika Intenza**
University of Pisa

**Esin Yoruk**
Coventry University

**Antonio Corvino**
University of Foggia

**Chiara Pia Saraò**
University of Foggia

## TRACK DESCRIPTION

This track welcomes contributions on how entrepreneurial ecosystems and inter-organisational networks contribute to sustainable value creation, with regard to supply chain networks, collaboration, innovation, and resource interdependencies. In a business environment shaped by the twin transition, technological change, geopolitical uncertainty, and growing sustainability pressures, firms and entrepreneurial ventures are embedded in complex networks of suppliers, customers, investors, universities, institutions, and other ecosystem actors. This track encourages studies on how these relationships facilitate access to resources and knowledge, enable innovation and sustainable transformation, and strengthen resilience in times of uncertainty and disruption. This track particularly welcomes research on startups, SMEs, and inter-firm networks in sustainable supply chain transformation, as well as on stakeholder engagement and multi-stakeholder collaboration. Contributions on measuring value creation and sustainability performance across ecosystems and networks, and on the social, environmental, and economic outcomes of entrepreneurial and supply chain networks, are of specific interest. Theoretical, empirical, and interdisciplinary approaches are all in scope.

## KEYWORDS

Entrepreneurial Ecosystems · Supply Chain Networks · Sustainable Supply Chain · Resilient Supply Chain · Multi-stakeholder Networks

## IMPORTANT DATES

| 14 Feb 2027 | 28 Feb 2027 | 31 Mar 2027 | 30 Apr 2027 | 3–4 Jun 2027 |
|---|---|---|---|---|
| Extended abstract and full paper submission | Notification of acceptance | Early registration deadline | Late registration deadline | Conference in Bari |
